

3-POINT GUN SLING SAG-3

APPLICATION

Multifunctional, adjustable gun sling, allowing for quick change of hand leading fire.

PROPERTIES

Placing the sling length adjustment makes it unobstructive even when wearing a rucksack and largely eliminates the possibility of hitching up the equipment. Shortened, it allows you to conveniently carry the weapon on your back and quickly restore it to its normal position. Special design allows you to change the "stronger" hand to the "weaker" and back without having to move your eyes from the environment and change the grip. Simple construction minimizes the likelihood of damage. After adjustment, it can be used as a one-point sling.

MATERIALS

Webbing: Polyamide 25 and 30 mm
Buckles: Duraflex
Finish: Paracord
