

RAIDER BASIC BELT

APPLICATION

For mounting the main belt or equipment, or as the trouser belt.

PROPERTIES

Made of a single, rigid tape, does not deform after attaching the holster and the equipment. The inside of the belt is covered with velcro, which prevents sliding of the equipment and provides solid attachment to the main belts with velcro sewn inside (like the Raider Cobra). The Cobra FC45 metal buckle is exceptionally resistant to loads. Belt length adjustable by velcro.

MATERIALS

Webbing: Thick polyamide 45 mm
Velcro 40 mm

Buckles: Cobra FC45
