

ADVENTURER LENS POUCH

APPLICATION

For carrying single camera lens. Protects form damage and stain.

PROPERTIES

The walls of the pocket were filled with 10 mm soft foam. It provides a very good cushioning to stiffness ratio, and the smooth lining prevents scratches. The bottom is filled with additional rigid foam, which reduces the probability of damage when dropped or dropped. The main compartment is closed with a two-way zipper.

On the back is an interlaced tape system, compatible with MOLLE / PALS (NATO standard). This allows you to attach the pouch to tactical belts, vests, backpacks and chestrigs, as well as to an usual trouser belt.
